The Campfire series of vent-free gas logs have been tested and approved as an unvented room heater in the latest ANSI Z21.11 standard. This unit also complies latest ANSI Z21.60 "Decorative Gas Appliances" for solid fuel burning fireplace standards. These gas logs are intended for installation into solid fuel burning fireplaces, or approved unvented fireplaces, and are also approved for installation in an aftermarket manufactured (mobile) home, where not prohibited by state or local codes.
