Experience the Superb Outdoors

A *Superb* Addition to Any Home

Invite comfort, natural beauty and ambiance into your home – inside and out – with a Superb Chimenēa. With two outdoor models and one model for indoor use only, Superb's Chimenēa Collection adds a distinctive touch of warmth to your home – and your heart.

Comfort In The Great Outdoors

Extending the comfort and warmth of your home to your deck, patio or favorite backyard gathering spot is easy with our outdoor Chimenēas that are built to last and last.

The outdoor grape-leaf model features the unique combination of a rugged cast aluminum body and cast iron burner with realistic gas log. The safety screen and removable lid keep leaves and debris from collecting inside so the fire is ready to start at a moment's notice. You'll

also enjoy the added convenience of the piezo igniter and the variable, manual control that adjusts the flame height from low (27,000 Btu/LP) to high (32,000 Btu/LP).

The outdoor stucco design offers a cast iron body and burner, safety door and removable lid. Offering 35,000 Btus of warmth, this model lights with a match and features a shut-off valve for added convenience and safety.

Both our outdoor grape-leaf and stucco models feature intricate designs and patterns. Both models are available in two heat-resistant, antiqued paint finishes – choose from Antique Green or Terra Cotta Red. To complement the look of your Chimenēa, an optional propane tank cover is available.

Outdoor Stucco Design in Antique Green

Enjoy The Outdoor-Look Inside Your Home

Now you can enjoy that outdoor-look *inside* your home with our new vent-free indoor Chimenēa. It offers the same durability as our outdoor models with a rugged cast iron body and cast iron burner. You'll also enjoy the added comfort and beauty of our unique 16" Slope Glaze Burner System featuring our charred oak log set. Taking comfort and beauty to a higher level, the system's burner incorporates a glaze material that produces tall dancing flames and glowing embers for a lively looking fire.

CSA certified for indoor use only, the indoor model offers 20,000 Btus of comfort with dedicated LP and Natural Gas models. The indoor Chimenēa also offers an oxygen depletion sensor and millivolt-controls, and it is remote capable. Five control accessories are available.

The indoor Chimenēa features our beautiful grape-leaf design with intricate leaf patterns. To accent your décor, the indoor Chimenēa is available in two heat-resistant, antiqued paint finishes – choose from Antique Green or Terra Cotta Red.

A Superb Addition To Any Home

For more than three-quarters of a century, we have been designing and building quality heating products to last a lifetime. From natural realism to superior technology, our Chimenēa Collection will become a superb addition to *your* home.

Indoor Grape-Leaf Design in Antique Green

Warranty
<i>All parts for Outdoor Chimenēas carry a 3-year limited warranty. All parts for Vent-Free Indoor Chimenēa carry a 5-year limited warranty with a 5-year limited labor warranty. Note: Empire has a policy of constantly improving quality and performance of its appliances; therefore, materials and specifications are subject to change without notice.</i>

Safety Controls
<i>Gas Valve with Thermocouple on Grape-Leaf Design Outdoor and Grape-Leaf Design Indoor models. On/off shut-off valve on Stucco Design Outdoor model.</i>

The Stucco Design Outdoor Chimenēa and Grape-Leaf Design Indoor Chimenēa have a cast iron body and may develop surface rusting. This is common with cast iron and not covered under warranty.

Indoor Chimenēa is for indoor use only.
